Scope & Assumptions

Scope:

- **Products:**
 - Recruiting Assistant
 - Candidate Q&A
 - Conversational Job Search
 - Conversational Apply
 - Chat/Text to Apply
 - Employee Referral Program
 - Conversational Schedule
 - Automated & Semi-Automated Scheduling
 - Room Booking
- **Integrations:**
 - SSO
 - Workday Recruiting
 - O365
 - Microsoft Teams
- **Messaging:**
 - Email
- WhatsApp
- SMS
 - 10 DLC
- **Countries:**
 - Argentina, Australia, Brazil, Canada, Chile, Colombia, Czech Republic, Denmark, Finland, France, Germany, Guatemala, Hong Kong, India, Israel, Italy, Japan, Malaysia, Mexico, Netherlands, New Zealand, Norway, Peru, Philippines, Poland, Portugal, Austria, Belgium, UAE, Singapore, South Africa, South Korea, Spain, Sweden, Switzerland, Taiwan, Thailand, United Kingdom, United States
- **Languages:**
 - English

Assumptions:

- **Build Responsibilities:**
 - Any integration originating from Workday Recruiting is Sailpoint's build/management responsibility
 - (Workday Recruiting → Paradox)
 - Via Workday Workday Orchestrate
 - Any integration originating from Paradox is Paradox's build/management responsibility
 - (Paradox → Workday Recruiting)
 - Any item labeled under the '[Summary of Changes in Workday Recruiting Configuration](#)' section of this BRD will be Sailpoint's build/management responsibility
 - Paradox will provide scheduling sites Recruiters can use to engage with candidates before they have applied to use for scheduling a screen with the recruiter
 - Recruiters will be able to provide candidates a link to take them through the Chat to Apply with Paradox by providing the candidate the job link from My Jobs in Paradox
 - If Sailpoint would like to add Olivia to any additional pages on their corporate website they will be able to provide those URLs no later than September 9, 2026.
 - Sailpoint will continue to review SCIM API for user permissioning. Decision on file or SCIM will be made prior to SIT testing.
 - While Brazilian Portuguese, English, French, German, Japanese, and Spanish are in scope of the Sailpoint SOW, Paradox will only be implemented in English
 - Sailpoint will provide name of new Offer Status no later than 1 week prior to the start of SIT.
-

Assistant

Name: Olivia

Assistant Image:

Knowledge Base Type: Mix of Contextual and Defined

Audience(s)/Rules:

- Paradox will provide Sailpoint the widget javascript to configure on their career site portal, filtered only to display jobs that are "Open" and "Posted"
- All roles will be able to utilize chat to apply. If the candidate chooses to talk with Olivia will be able to use chat to apply but if they apply traditionally, they will apply through Workday

Assistant Visibility

- Widget to display on the following sites:
 - <https://sailpoint.wd1.myworkdayjobs.com/SailPoint/jobs>
 - <https://www.sailpoint.com/company/careers/sail-u>
 - Text code: Apply
-

Security

GDPR/CCP

- Should a candidate request that Paradox purge their data the will be directed to:
[https://urldefense.com/v3/https://privacyportal.onetrust.com/webform/683a4de4-8e59-4513-854f-dfc99bb5b1d0/e26ece77-13c5-446f-96e3-ba0676ab0532_!!jz9xO38YGHZK!6nSb7yAzrXLF4PBLA88C3dpmETbupFm1TqkYNymGGC4uWPVPEy1xzBtw5yCa9rc314m-zFPq4CA-1z_flcrUMz2HV6ajDHmi\\$](https://urldefense.com/v3/https://privacyportal.onetrust.com/webform/683a4de4-8e59-4513-854f-dfc99bb5b1d0/e26ece77-13c5-446f-96e3-ba0676ab0532_!!jz9xO38YGHZK!6nSb7yAzrXLF4PBLA88C3dpmETbupFm1TqkYNymGGC4uWPVPEy1xzBtw5yCa9rc314m-zFPq4CA-1z_flcrUMz2HV6ajDHmi$)
- **Data Retention:** Paradox should maintain candidate data for all candidates forever.

Terms & Conditions

- Region: Global
 - Language: English
 - Terms: Displayed before the candidate can interact with Olivia
-

Candidate Journey Overview

Candidate Journey:  **Lucidchart document**

Feeds Overview

- Sailpoint will continue to review SCIM API for user permissioning. Decision on file or SCIM will be made prior to SIT testing.

User Feed (Workday Recruiting → Paradox)

- Standard Fields; see ICD for specific details
- Full File
- Daily
- **User Permissions & Visibility**
 - **Admins**
 - Who: Manually Upgraded within Paradox system
 - Visibility: Access to all candidates across all requisitions
 - **Power Users**
 - Who: TA Team, in special cases a limited user can be upgraded to a Power User to be granted access to schedule interviews
 - Visibility: All Candidates, All Req
 - **Limited Users**
 - Who: All other users who need to be available to be scheduled for an interview

Location Feed (Workday Recruiting → Paradox)

- Standard Fields; see ICD for specific details
- Full File
- Weekly

Job Feed (Workday Recruiting → Paradox)

- Full File
- Job Feed Refresh = Every 4 hours
- Standard Fields; see ICD for specific details
- Additional Required Fields:
 - Requisition Status: Open/Closed (Posted vs. Unposted)
 - Requisition Identification: Internal/External
 - Recruiter on the Requisition
 - Hiring Manager on the Requisition

Integration Breakdown

The below tables summarize the API connections needed between Sailpoint's Workday Recruiting environment and Paradox to support the agreed-upon solution.

- Any integration originating from Workday Recruiting is Sailpoint's build/management responsibility
 - (Workday Recruiting → Paradox)
 - Via Workday Studio or Workday Orchestrate
- Any integration originating from Paradox is Paradox's build/management responsibility
 - (Paradox → Workday Recruiting)

Workday → Paradox Integrations

Update Candidate: Dispositions (Workday Recruiting → Paradox)

Trigger / Step Change	Action	Notes
Candidate dispositioned in Workday	Moves Candidate to disposition in Paradox Build Note: Paradox will map all	• Disposition reasons outlined in configuration workbook

	dispositions from Workday to one disposition status in Paradox	Paradox will send no message upon disposition, Workday will continue to send disposition emails
--	--	---

Create Candidate (Workday Recruiting → Paradox) - Build Note: Paradox 'Essential Connector'

#	Trigger / Step Change	Action	Notes
1	Candidate applied directly in Workday and is in the Review Stage	Creates candidate in ' <i>Candidate Received</i> ' in Paradox	Language Preference: - English Communication Preference: - Communication Method is it gathered within Workday Global consent via privacy policy defaulted to Paradox's recommended communication method by country

Update Candidate (Workday Recruiting → Paradox) - Build Note: Paradox 'Essential Connector'

#	Trigger / Step Change	Action	Notes
1	Screen Stage: Recruiter moves the candidate to " Recruiter Screen " in Workday	Moves the candidate status to ' <i>Recruiter Screen Pending</i> ' in Paradox and triggers automated scheduling with the below rules: Interviewer: Defaulted to <i>Recruiter on Req</i> Duration: Defaulted to <i>User Profile Preference</i> Type: Defaulted to <i>User Profile Preference</i> Min Scheduling Timeline: <i>User Profile Preference</i> Max Scheduling Timeline: <i>User Profile Preference</i> Interview Selection Reminders: 24, 48, 72 hours Reschedule Allowance: 2xs Interview Request Expiration: 1 week	Callout: If the candidate chooses to cancel their interview, Olivia will follow up and ask them why they canceled. Reasons for decline are outlined in the configuration workbook.
2	Interview Stage: Recruiter moves the candidate to " Manual Interview " in Workday	Moves the candidate status to ' <i>Manual Interview</i> ' in Paradox Candidate will await scheduling (in the 'Manual Interview' status) by recruiter either within the CEM or extension	Use Cases: - Sequential Interviews - Multiple interviews within a

		- Scheduling Timelines can be edited on-the-fly within the Paradox Scheduling modal - Recruiters will be able to add notes and interview prep when scheduling - Recruiters will be able to choose the time for the interview in the browser extension or CEM	- round - In-Person Interview Location is NOT the job req location - Choose a time / schedule over unavailable times - Interview Prep templates - Room Booking is available to be utilized (any room or a specific room) - Ability to add interviewers as 'optional'
3	Offer Stage: Candidate moves to "NEW OFFER STATUS" in Workday	Moves the candidate status to 'STATUS NAME' in Paradox Olivia will send the candidate a text message or WhatsApp message letting them know they have an offer to accept with a link to their Candidate Home	- Sailpoint will provide name of new Offer Status no later than 1 week prior to the start of SIT. - Messages outlined in the configuration workbook - Paradox will only send the SMS and WhatsApp messages. Emails will continue to come from Workday.
4	Ready for Hire Stage: Candidate moves to "Ready for Hire" in Workday	Moves the candidate status to 'Ready for Hire' in Paradox Olivia will send the candidate a text message or WhatsApp message welcoming them to Sailpoint and helping them to understand next steps	- Messages outlined in the configuration workbook - Paradox will only send the SMS and WhatsApp messages. Emails will continue to come from Workday.

Send Interview Alerts (Workday Recruiting → Paradox) - Build Note: Paradox 'Enhanced Connector'

#	Trigger / Step Change	Action	Notes
1	Interview Stage: Recruiter moves the candidate to - Interview 1 - Interview 2	Moves the candidate into one of the following statuses in Paradox & triggers automated scheduling: Interview 1	Workday Actions for Code Signal Interview: The recruiter will move

	• Interview 3 • Interview 4 • Interview 5 • Code Signal Interview	• Interview 2 • Interview 3 • Interview 4 • Interview 5 • Code Signal Interview	the candidate to Code Signal Interview which will kick off the integration to Paradox. Once the interview link is returned to Workday, the interview scheduling request can be sent to Paradox • Interview rules will be pulled from the 'Interview Team' grid on the requisition (see below for interview type options) Use Cases: • Phone/Virtual/In-person - single interview in round • In-Person interview location = job posting location in WD • Single 1:1 / Panel Interviews - single interview in round
--	--	---	--

[Paradox → Workday Integrations](#)

Create Candidate Record ([Paradox → Workday Recruiting](#))

#	Trigger / Status Change	Action	Notes
1	When the candidate reaches " Capture Complete " in Paradox	Creates candidate in 'Review' in Workday Recruiting Paradox will also send the candidate a link to create their Candidate Home If Workday auto-routing/ auto-dispositioning is enabled it will trigger immediately once the candidate has been put into this Stage.	Candidate Source Rules: • If a UTM source is gathered = Paradox will pass that exact UTM to the field on the candidate application • If a UTM source is not gathered = Paradox will pass the candidate identified source on the 'How did you hear about us' question on their application template Incomplete Applicants:

		Next Steps will be determined one of two ways: 1. Auto-Routing via Workday 2. Manual Step movement by Recruiter	• Candidates who do not finish their conversation with Paradox will not have their application created within Workday but will be visible in Paradox. • All data will be reportable within the Paradox system (ex: drop-off rate) • <u>Next Steps:</u> ○ After 30 minutes of inactivity the candidate will be moved to the status of '<i>Capture Incomplete</i>' within Paradox ○ Paradox will send reminders to candidates to complete their application (24/48 hrs) ○ After 72 hours the candidate will be moved to '<i>Candidate Unresponsive</i>' and sent a 'Thank You' message ■ This message will include a link to join the talent community
--	--	---	--

Update Custom Job Application Object (Paradox → Workday Recruiting)

#	Trigger / Status Change	Action	Notes
1	Screen • No Availability for Screen • Screen Request Canceled • Screen Request Expired • Screen Scheduled • Screen Canceled • Screen Completed	Update 'Paradox Status' Job Application Custom Object with the exact name of the Paradox status This status will be visible on the candidate grid & on the candidate's profile under 'Overview' > 'Additional Data'	
2	Automated Interview Round 1, 2, 3, 4, 5, Code Signal • Invite to Interview • No Availability for Interview • Interview Pending • Interview Request Canceled • Interview Request Expired • Interview Scheduled • Interview Canceled • Interview Completed	Update 'Paradox Status' Job Application Custom Object with the exact name of the Paradox status This status will be visible on the candidate grid & on the candidate's profile under 'Overview' > 'Additional Data'	Once the interview date is confirmed, Paradox will proceed by updating the Job Application Custom Object and concurrently executing the Schedule Interview Task within the Workday environment.
3	Manual Interview • Invite to Semi Automated Interview	Update 'Paradox Status' Job Application Custom Object with the exact name of the Paradox status	Once the interview date is confirmed,

	• No Availability for Semi Automated Interview • Semi Automated Interview Pending • Semi Automated Interview Request Canceled • Semi Automated Interview Request Expired • Semi Automated Interview Scheduled • Semi Automated Interview Canceled • Semi Automated Interview Completed	This status will be visible on the candidate grid & on the candidate's profile under 'Overview' > 'Additional Data'	Paradox will proceed by updating the Job Application Custom Object and concurrently executing the Schedule Interview Task within the Workday environment
--	--	---	--

PUT Interview (Paradox → Workday Recruiting) - 'Schedule Interview Task'

Trigger / Status Change	Action	Notes
• Candidate is scheduled for an interview using Paradox triggered from the Interview Stage in Workday	The interview date, time, interviewer(s) & feedback questionnaire IDs are sent back to Workday to complete the 'Schedule Interview' action step on the Interview BP	• The task will always be sent in the timezone of the Workday tenant • When an interview is rescheduled, the updated data will be updated on this task • After the interview, the interview feedback process will be managed by the interviewer(s)

Summary of Changes in Workday Recruiting Configuration

Changes needed within Sailpoint's Workday Recruiting environment to support the agreed upon solution are included below but not limited to:

***Please Note:** These items are Sailpoint's build/management responsibility

Create/Update 6 new step labels in the Workday Recruiting Job Application BP

- Stage: [Interview](#)
 - Interview Round 1
 - Step Label Override: [Interview 1](#)
 - Interview Round 2
 - Step Label Override: [Interview 2](#)
 - Interview Round 3
 - Step Label Override: [Interview 3](#)
 - Interview Round 4
 - Step Label Override: [Interview 4](#)
 - Interview Round 5
 - Step Label Override: [Interview 5](#)

- **Semi Automated Interview**
 - Step Label Override: [Manual Interview](#)
 - **Schedule Code Signal Interview**
 - *Workday Actions for Code Signal Interview: The recruiter will move the candidate to Code Signal Interview which will kick off the integration to Paradox. Once the interview link is returned to Workday, the interview scheduling request can be sent to Paradox from "Schedule Code Signal Interview"*
- **Stage:** [Offer](#)
 - **New Offer Status**
 - Step Label Override: Sailpoint will provide name of new Offer Status no later than 1 week prior to the start of SIT.
- Add [36](#) new Interview Types for use within the 'Manage Interview Teams' grid
 - Round 1:
 - Round 1: Phone - Panel
 - Round 1: Phone - Round Robin
 - Round 1: Virtual - Panel
 - Round 1: Virtual - Round Robin
 - Round 1: In-Person - Panel
 - Round 1: In-Person - Round Robin
 - Round 2:
 - Round 2: Phone - Panel
 - Round 2: Phone - Round Robin
 - Round 2: Virtual - Panel
 - Round 2: Virtual - Round Robin
 - Round 2: In-Person - Panel
 - Round 2: In-Person - Round Robin
 - Round 3:
 - Round 3: Phone - Panel
 - Round 3: Phone - Round Robin
 - Round 3: Virtual - Panel
 - Round 3: Virtual - Round Robin
 - Round 3: In-Person - Panel
 - Round 3: In-Person - Round Robin
 - Round 4:
 - Round 4: Phone - Panel
 - Round 4: Phone - Round Robin
 - Round 4: Virtual - Panel
 - Round 4: Virtual - Round Robin
 - Round 4: In-Person - Panel
 - Round 4: In-Person - Round Robin
 - Round 5:
 - Round 5: Phone - Panel
 - Round 5: Phone - Round Robin
 - Round 5: Virtual - Panel

- Round 5: Virtual - Round Robin
 - Round 5: In-Person - Panel
 - Round 5: In-Person - Round Robin
 - Code Signal:
 - Code Signal: Virtual - Panel
 - Code Signal: Virtual - Round Robin
 - Code Signal: In-Person - Panel
 - Code Signal: In-Person - Round Robin
 - Create **1** custom job application object
 - **Paradox Status**
 - Paradox scheduling status updates back into Workday
 - This custom object will be a list select for Paradox to map back to the specified options within Workday
 - Must be added into the Candidate Grid
 - Enablement of 'Interview Teams' feature on the job req
 - Sailpoint to place widget Javascript (STG/PROD) / Widget on Workday External Career Site [HERE](#)
 - SMS/WhatsApp consent needs to be added to Workday privacy policy to support providing Paradox the preferred method of communication for candidates who apply directly in Workday.
-

Employee Referral Program

Employee Experience:

- Employee will speak with Olivia (via text **(TEAM)** or landing page) and be asked the following questions:
 - Personal First & Last Name
 - Phone & Email
 - Employee ID
 - Candidate First & Last Name
 - Candidate Phone Number
 - Candidate Email
 - Specific job to refer to vs. general referral
 - Specific: Employee will be taken through job search to find a specific role
 - General: Employee will not be taken through job search
 - Employee will be told their referral will hear from Olivia within 1 minute

Candidate Experience:

- Candidate will texted/emailed by Olivia and asked if they wish to opt-in to the conversation
 - If the candidate opts in, they will be asked to search for a job or be provided with the job the employee referred them to
 - Dependent on the specific vs. general option the employee selected
 - If the candidate finds a job they will be directed to go through chat-to-apply like any other candidate
-

SIGN-OFF & ACCEPTANCE

----- End of Requirements - Sign off Below -----

By signing below, Sailpoint & Paradox agree to the following:

This document contains, to the best of our knowledge, all requirements discussed and agreed upon throughout our 'Discovery and Design Phase' between June 15, 2026 - July 1, 2026. Both Sailpoint & Paradox agree to move forward into the 'Build Phase' of this project, understanding that if updates are necessary after sign off of this document, they will go through Paradox's Change Order Process and may have an impact on milestone dates and the ultimate Go-Live date.

Sailpoint is responsible for the build/cost of any outbound integrations to Paradox and configuration changes/additions to said environment(s). Paradox resources are not responsible for the execution of Sailpoint tasks or any resulting delays.
